

CANCER LEGAL CARE

LAWYERS ON YOUR CANCER CARE TEAM

A cancer diagnosis brings waves of questions.

From the right course of treatment to the impact on the practical and financial areas of life, the issues cancer patients experience are complex and often ones never faced before.

Cancer Legal Care works closely with health care teams around Minnesota, who speak to the value legal care provides their patients.

Since 2007, Cancer Legal Care has helped over 14,000 Minnesotans with some of the most common legal and financial issues patients and caregivers face during and after cancer treatment.

93 Percent

of our clients report that we were able to help resolve their issues.

You were kind, helpful, calming, encouraging, and made my fears go away. Thank you.

WHAT WE DO

Employment

We explain how various employment protections – from the Family Medical Leave Act (FMLA) to the Americans with Disabilities Act (ADA) to the Minnesota Human Rights Act (MHRA) – apply to each client’s specific situations.

Estate Planning

We listen to concerns about wills, health care directives, and powers of attorney, then help create a pathway forward aligned with individual needs and situations.

Social Security Disability

Our Social Security Application Assistance Program (SSAAP) provides advocacy and guidance from the start of the application process through receipt of first payment for eligible clients.

Financial

While we don’t provide direct financial assistance, we help clients address the financial stress cancer can bring through our guidance on employment, Social Security disability benefits, health insurance

Insurance

We help clients understand health insurance coverage and appeal denials and billing mistakes through our Insurance Claim Advocacy and Resolution (ICARE) work. We also help clients understand their short- and long-term disability and life insurance coverage.

HOW WE WORK

We are just a phone call away.

Whether at the time of diagnosis or when a legal or financial challenge comes up, call us. We provide legal care, so cancer patients and their caregivers can focus on their health.

Our conversation will focus on you and your concerns. For most of our clients, this conversation is all they need to get immediate questions answered and to chart a path forward. If more is needed, we will work to provide that additional legal care, or if we can’t help with an issue, we’ll provide trusted referrals through our extensive network of other attorneys, organizations, and programs to get you where you need to be.

Our legal care is provided at no cost. Generous support from the wider community by way of donations of time, money, and expertise, makes this possible.
